Nimonik

Industry Standards Management Solution

By Engineers for Engineers

Established in 2008 by engineers, Nimonik understands the challenges engineers face because we've been there. The Nimonik platform is built to empower engineering and quality teams with practical tools to access and manage standards from all major publishers.

Amazing Team, Big Heart

Nimonik is agile, innovative, and highly responsive to customer needs. Nimonik ensures personalized attention, fast deployments and quick response times.

A Growing Company

Nimonik has consistently grown its database and features based on customers. Join Nimonik as we strive to build the best tool for engineers and compliance professionals around the world.

Fast Deployment

Smoothly set up your team with access to critical standards. Nimonik will ensure you get started on the right foot if you are coming from an existing subscription or starting for the first time.

Nimonik Customers

Join a growing list of global leaders who trust Nimonik for their compliance needs. Nimonik customers span industries such as manufacturing, aerospace, automotive, energy, and more.

Manufacturing, Oil & Gas, Mining, Medical Device Companies and more rely on Nimonik for their Industry standards to:

- ⊘ Search
- ⊘ View
- ⊘ Share
- ⊘ Manage Updates

Key Features

Over 750,000 Standards and Regulations at your Fingertips

Access a vast library of industry standards, regulations, and best practices relevant to your sector. Purchase Industry Standards, track critical updates effortlessly and manage your team.

Fast Updates

Stay informed when standards change. Nimonik publishes changes 2 days after publishers release new revisions.

Redline Document Comparison

Review and easily understand changes with redline comparisons of standards.

Traceability and Customization

Assign responsibility to people and teams and trace their reviews of changes to documents. Add notes, comments, risk assessment and issue actions to your colleagues and suppliers.

Audit and Reporting Tools

Easily generate comprehensive reports and conduct internal audits to assess your compliance efforts against standards.

Mobile Access to Standards

Use Nimonik's mobile application on iOS and Android to view your standards. Read documents online or without an internet connection.
